RUSH ALL ROAD WORK BEFORE "SHUT DOWN"

Make Public Weekly Detour and the Road Conditions.

EASTERN "DIXIE"

There Are Good Roads Most of the Way From Covington to Walton With Exception of Short Gap.

FRANKFORT, Ky., Nov 22 (AP)—With but two weeks left before the shut-down of all road work on or about December 1 until next April, work on all roads is being rushed, Joe S. Boggs, state highway engineer, said today. The weekly detour and road conditions bulletin of the department of state roads and highways was made public, reading:

Cincinnati-Cumberland Gap Route

Eastern Dixie—20 miles concrete road from Covington to Walton, excepting short gap where road is relocated, old road being used at this point. Detour east at south corporate limits of Walton by way of Verona to Crittenden. Approximate length of detour 12 miles fair macadam Concrete road from Crittenden to Williamstown, 10 miles. Grade and drain construction under contract from Williamstown to Corinth by way of Cordova over fair macadam road. The length of detour approximately 12 miles. Poor macadam road from Corinth to within five miles of Georgetown. From this point to Lexington good.

It is recommended that traffic detour east at a point one mile north of Walton to the Covington-Falmouth-Cynthiana road near Nicholson This detour is a fair macadam road approximately three miles in length. Turn south at Nicholson on concrete road to the end of concrete; take short detour to east to avoid construction between this point and Grassy Creek. Good road south by way of Falmouth, Cynthiana, Paris and Lexington.

Lexington to Madison county line good Three and one-half miles south Madison county line poor but passable. Concrete road on to Richmond. Waterbound macadam reconstruction from Richmond to Kingston. Kingston to Berea under construction. Detour via Coleast at Todd's store in dry weather, going through construction in wet weather.

Boone Way

Knox County—Tennessee traffic should go via Barbourville, Pineville and Middlesboro to Cumberland Gap Construction of concrete paving between Corbin and Barbourville. Through travel should take the detour three miles south of Corbin via Woodbind and Dishman Springs which is in good condition except after heavy rains. Road through Barbourville, Pineville and Middlesboro to Cumberland Gap is in good to excellent condition

Tea Tasters Must Eschew Perfumes

LONDON, Nov. 22. (AP)—No woman who smokes cigarettes can hope to become a professional tea taster, according to Miss Margaret Irving, the only woman among London's millions of women tea drinkers, who has qualified as a tea expert. She has taken her place alongside men who get thousands of pounds a year for grading and judging the leaves which enter into England's favorite beverage.

Methodist Schools Gain Many Students

CHICAGO, Nov 22, (AP)—A total of 57,471 students are registered this fall in the 44 colleges and universities sponsored by the board of education of the Methodist Episcopal church, according to reports just compiled. This is an increase of about 96 per cent in the enrollment for this group of schools since [illegible]. The total for that year was [illegible].

The largest enrollment increase reported was [illegible] at Union

Mrs. Sheatsley Was Dead Before Being Put in Furnace

Chemist Makes Report to Coroner on Bexley Mystery.

NO POISON TRACE

Lungs Would Have Filled With Carbon Monoxide Gas Had Victim Breathed After Entering Furnace.

COLUMBUS, O. Nov 22 (AP)—Mrs. Addie Sheatsley, found practically cremated in the furnace of the parsonage of Christ Lutheran church in Bexley, a suburb, Monday was dead before her body was placed in the fire vault, it was disclosed in a preliminary report submitted to country prosecutor John R. King, by chemist T. C. Long last night.

Mr Long said that no trace of carbon monoxide poisoning was found in "three ounces of good blood" taken from the lungs of the victim. Practically all known etsts were made in attempts to find trace of poisoning, he said Intense congestion was noted in each of the lungs, he stated.

Had Mrs. Sheatsley breathed after entering the furnace, her lungs immediately would have become filled with the carbon monoxide gas which would have been absorbed at once by the blood, Mr. Long declared

The Rev C V. Sheatsley, husband of the victim told Prosecutor King on Wednesday that he was convinced she had committed suicide, During his examination on Tuesday, however, he told authorities he believed his wife had been murdered.

Findings of the chemist's report that Mrs Sheatsley did not cast herself into the furnace are in direct conflict with the statement by Rev. C V. Sheatsley, husband of the victim to Prosecutor King on Wednesday that she committed suicide During his examination on Tuesday, he told authorities he believed his wife had been murdered.

The Rev. Sheatsley and his four children are with relatives at Paris where funeral services were held yesterday. They expect to return to Columbus the first of the week.

FAMOUS MAGICIAN IS A SCIENTIST

Blackstone, the Stage Artist Is a Scientist As Well As An Entertainer.

Not even the motor car or the radio is more significant in marking the progress of scientific invention than is the performance of Blackstone, who comes with his big necromatic exposition to the Manring Theatre, Wednesday night, Nov. 26th Blackstone is known to the public alone as a stage artist whose winning personality and dextrous manipulations provides a delightful entertainment. As a matter of fact, Blackstone's public appearances are but the manifestations of countless hours of mental toil in conceiving and fabricating the hundreds of intricate phantasmagorias that comprise his repertoire.

First and foremost Blackstone is a scientist. After being graduated from Cornell he took a post graduate course at the Sorbonne, specializing in physics and chemistry. He spends three months each summer in his laboratory at Greenwood Lake, N. Y., inventing and testing new apparatus. In addition to arranging his own exhibitions Blackstone is in constant demand by producers of plays and musical shows for big scale and electrical effects.

The chair of chemistry in several Eastern colleges but in addition to his powers as a savant he is a clever business man and which prefers his huge income as a showman to the modest stipend accorded university professors.

HOLD PRACTICES FOR LOCAL PLAY

Fine Production Is Assured As the Players Are Working Diligently On Roles.

Those who are to take part in the "Union Depot," the play that will be given under the auspices of the Women's Club on December 5, have met twice during the past week. Practice is now organized and will be conducted twice each week in the Carnegie Library, Tuesday and Friday nights. It has already been found that the players fit their parts splendidly.

They are all very enthusiastic about the play, which means that every practice hour is an hour verey pleasantly spent, there is every reason to believe that the play is going over big when it is presented to the public.

Swedish Senate Is Democratic

STOCKHOLM, Nov. 22. (AP)—Nothing short of an American jury can compare with the newly elected personnel of the Second Chamber of the Swedish Riksdag for variety of occupation and social status. The list of members contains more than 90 different titles to describe the pursuits and positions of the persons constituting the full membership

Occupations selected at random from the list are as follows: mechanician, chaplain, baker, miller, glass blower, clergyman, physician, merchant, dairyman, gardner, mail carrier and accountant. Of the three women members, one is a trained nurse, one a photographer and one sets herself down as "wife." There is one baron, one count and several other noblemen of Sweden's bluest blood.

Salmon Thrive In Waters of Ontario

OTTAWA, Nov 22 (AP)—Salmon from the seaboards of America live and grow fat in the waters of Lake Ontario and the streams of British Columbia, according to a bulletin issued by the Canadian department of marine and fisheries, announcing success of a six-year exeprinent. Fully matured sockeyes, native to the Pacific coast have been taken from Lake Ontario this year and two-year old Atlantic salmon have been caught in the Pacific coming down the Cawichan river of Vancouver Island

U. S. Engineers To Build Jap Bridges

TOKIO, Nov. 22—An American company has obtained the contract for two of the most important pieces of engineering in the Tokio reconstruction program

The Foundation company of New York will build the foundations for two bridges over the Sumida river which will replace those destroyed in the earthquake of 1923 These are the Eitai and Kiyosu bridges The contract calls for the foundations to start 80 feet under water work being done by the compressed air diving system. L. R. Craft and N. Englander, New York, engineers are in Tokio to superintend the work, which is expected to take about three years. Japanese engineers estimate that with their methods it would require six years

Make Home for Veterán Pigeons

LOS ANGELES, Nov. 22. (AP)—A home for United States Army carrier pigeons, veterans of the World War, has been established here at the army pigeon lofts at Ross Field, Arcadia.

Included among the 200 birds at the home, all of which saw service overseas, are three honor birds, so distinguished because of their exceptional performances in action. Two of these, "President Wilson" and "The Meeker," carry scars of battle. "President Wilson" sacrificed a leg and "The Meeker," an eye in the fight for victory.

The third hero at the home, "Spike" appears none the worse for his war-time experiences. His claim to fame lies in his record of having carried [illegible] of communication

K. K. K. IN ILLINOIS MURDER CASE

Jury Secured In the Murder Trial for the Muruder of Sheriff Denny.

TUSCOLA, Ill, Nov. 22. (AP)—Examination of witnesses began today in the trial of Harley Campbell and Lo Baskin for the slaying of Sherman Denny on May 17 The jury was completed this morning.

Bitterness, over the Ku Klux Klan issue that characterized earlier attempts to secure a jury seemed tempered this morning with attorneys for both sides apparently disposed to complete the jury as quickly as possible. Several prospective jurors refused to answer questions relating to their membership in the K. K. K and were rejected by the state

A reversal of Judge Boggs' ruling as to the form of questioning in determining whether or not a talesman was a Klansman permitted the direct question to be asked as to his membership in that body, but the man questioned was given the privilege of refusing to answer.

GORE TO SUCCEED WALLACE

Washington, Nov 22 (AP)—Howard M. Gore of West Virginia, was appointed today secretary of agriculture to succeed the late Henry Wallace. Mr Gore who has been serving as acting secretary since the death of Mr. Wallace can serve only until next March 4th when he becomes governor of West Virginia.

Baby Skyscrapers Appear On Rhine

COLOGNE, Nov. 22. (AP)—Cologne and Dusseldorf, both on the Rhine about 60 miles apart, have engaged in a race to see which city will build the tallest so called skyscraper.

Dusseldorf started the movement last year, soon after the French occupied the Ruhr, completing an 11 story office building which is pointed to with pride by the citizens as the tallest building in Germany. Cologne, occupied by British troops was determined not to be outdone. Last summer Cologne began work on a 12 story building, and recently the Dusseldorfers announced that their 11 story pride is to have two floors added to it as soon as the Cologne skyscraper reaches 12 stories.

GERMAN EMIGRANTS SOUTH

BUENOS AIRES, Nov. 22—Dr. Preuse Sperberg, representing the German Emigrants Confederation, has arrived here with the purpose of investigating conditions for a further increase of German emigration to Argentina. He believes that the South American countries will be called upon to receive a great part of Germany's excess population.

SNAILS ON ENGLISH MENUS

LONDON, Nov. 22—(AP).—The "snail season" has opened in some of the leading London restaurants and hotels. These epicurian delicacies fed on vine leaves in the Burgundy vinyards, were brought over from Paris by an airplane and served after fish in their pale golden-brown shells.

RADIO ON LIFEBOAT

LONDON, Nov. 22. (AP)—The first lifeboat with radio to be carried on a cargo vessel was taken on the steamer Geraldine Mary, 7,200 tons, which left the Clyde for Newfoundland recently. The 26-foot lifeboat, fitted with a seven horse-power gasoline engine has a triangular aerial hoisted on two masts, and the transmitter is operated by an alternator.

Insurgent Republicans Neither Fish, Flesh Nor Fowl—No Plan Formed for Committee Appointments.

WASHINGTON, Nov. 22 (AP)—Representative Longworth, Ohio republican leader of the house came out today in favor of restricting the consideration heretofore given the insurgent republicans in the house. Those insurgents who failed to support President Coolidge, Longworth said, had no call for undue consideration in the organization of the next house, inasmuch as republicans will be necessary to prevent hinderance from the insurgent group, the Ohio representative continued

No specific plan has been outlined, however, for taking care of the LaFollette supporters in committee assignments

The Husband

This is Rev. C. V. Sheatsley, a Lutheran minister of Bexley, O., whose wife's body was found in a furnace of their home.

N. B. BROWARD IS KILLED IN H. CADY HOME

Police Report That Three Shots Were Fired.

CADY IS ARRESTED

Cady Tells Police That He and Broward Had Been Scuffling; Says He Believes Broward Killed Self.

ORLANDO, Florida, Nov. 22. (AP)—N. B. Broward, nephew of former Governor Broward, and the son of Malcolmn Broward of Jacksonville was shot and killed early today in the home of Hal Cady who was arrested

Police say that three shots were fired, one striking Mrs. Cady's cheek. Sherif Karel said that Cady appeared in a daze not knowing his wife had been shot until informed by the sheriff. Cady also thought Broward killed himself. The sheriff said that Cady told the police he and Broward had been scuffling. Broward's wife and two children live in Jacksonville.

BURLEY GROWERS MEET IN LEXINGTON

Organization Against "Cut-Out" Includes Both Pool and Non-Pool Members.

LEXINGTON, Nov. 22. (AP)—Growers from Kentucky and three adjoining states who oppose the abandonment of next years burley crop, met here in permanent organizations here today.

R. C. McMurty, temporary chairman, invited H. C. Duffy, Cynthiana, former speaker of the house of representatives, to address the meeting relative to the present situation McCurty and A. T. Sanders, Garrard county, grower, temporary secretary, emphasized that the meeting today included both pool members and non-pooleers. The meeting is expected to offset the action of the "cut-out" organization which weeks ago agreed to abandon next years crop.

Warning Issued To Auto Owners

WASHINGTON, Nov. 22 (AP)—A warning against fly by night concerns engaged in selling meaningless service contracts and against fake insurance and motor organizations, was issued today to American motorists by Thomas Henry, president of the American Auto Association.

The associations investigations found more than fifty, fraudulent organizations operating in various parts of the country selling everything from accident insurance to discount privilage at hotels.

Error Results In Fine Scholarships

LONDON, Nov. 22 (AP)—As a result of an error on the part of Britain's food ministry during the war a gift of $150,000 to found scholarships in certain agricultural colleges is contemplated by a number of dairy companies which benefited by the mistake.

In 1919 someone in the ministry erroneously imposed a levy of two pence a gallon on all milk transported from the southwestern counties to other parts of England, and following legal action by the dairies the money has been refunded.

Did You Ever Stop to Think

By E. R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

THAT it is difficult to understand the mental processes of the outomobilist who crosses a railroad track without stopping and taking a look right and left.

THAT when they do so, they are risking their lives and inviting an accident that may spell death for them, and a life of sorrow for their families.

THAT in spite of all warnings, this practice of forgetting safety first persists, and accidents occur daily because reckless motorists, like dark and silent ghosts, go on their reckless way.

THAT thoughtless drivers are a menace to public safety. The crossing of railroad tracks without stopping should not be tolerated.

THAT this class of motorist is in the same class with crazy drivers and the ones who drive while drunk.

AUTOMOBILE DRIVERS must remember that roads take a turn once in a while. They must turn with the road, not go straight ahead.

SOME AUTOMOBILISTS seem to forget that when a railroad engine and an automobile meet, it is the engine that stays on the track.

HUNT'S DAILY LETTER

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON—Down at the Washington navy yard is the wreck of an old smooth bore naval cannon, its muzzle shot away, which has seemed an object of reverent regard to an aged, slender, gray-haired man who has visited it from time to time.

Probably the visitor regarded these visits as occasions for communing again with an old pal.

For the gun was one of those mounted on the historic Confederate battleship Virginia, first of the ironclads, better known as the Merrimac, and the stoop-shouldered old man who lingered so fondly over it on its pedestal so was Captain Hen[illegible] visits duke, who commanded the gun crew which was serving it when a shot from the Monitor—the Union cheese-box on a raft"—put it out of commission.

• • •

BUT today the battered old gun remains the sole survivor of that historic battle to be found in the capital. For 18 months there had been no visit to the navy yard by the old officer.

And on Nov. 15 he died—the last of the officer personnel aboard the Merrimac in the first naval battle ever fought between ironclads.

With his death Washington lost one of the most colorful personalities of the "old days."

SCIENTIFIC study of the soul has been attempted by Dr. Ales Hrdlicka, chief anthropologist of the Smithsonian Institution. And as a result of his scientific deductions to date, Dr. Hrdlicka is convinced that soul is not a quality of which the human race has a monopoly, but extends down through the whole scale of intelligent life, varying only in degree as the intelligence of the various species varies.

• • •

"THOSE who have loved and lost," says Hrdlicka, "know the soul exists. It has been a faith beyond science. But when we come to actual knowledge of it, there is little to be said.

"It is impossible to discover any definite time in the life of a human being, from conception to death, when a line can be drawn, on one side of which there is no soul and on the other side of which there is soul.

"In the scale of life itself there is no definite point at which it can be said that the soul begins to exist.

"Whatever soul may be it must exist in proportion to mind throughout all nature."

• • •

HRDLICKA'S deductions are a result of a recent intensive study given to the work of attempting to establish beyond peradventure the evolutionary origin of the human race.

And in this attempt he claims, thereby directly challenging William Jennings Bryan, that the theory of evolution not only does not contradict or undermine religious teachings, but places them on a firmer, surer foundation.

"If Bryan would drop over to the museum and talk things over with us for half an hour without passion, we would present him with the evidence," Hrdlicka says. "If he has any evidence tending to disprove ours he will be conferring a great benefit on us by letting us know about it.

"Broadminded clergymen receive tolerantly the evidence of the descent of man. Unfortunately, they are not the militant ones, who preach against us without knowing what we have to say."

PRESIDENT COOLIDGE'S first visit west of the Alleghenies as president will be a trip to Chicago, early in December, when he will make two addresses. The keynotes of these speeches are expected to be farm legislation and tax reduction, both of prime interest in the country's agricultural metropolis.

Charley Dawes, doubtless, will be at the head of the committee to make the president welcome.

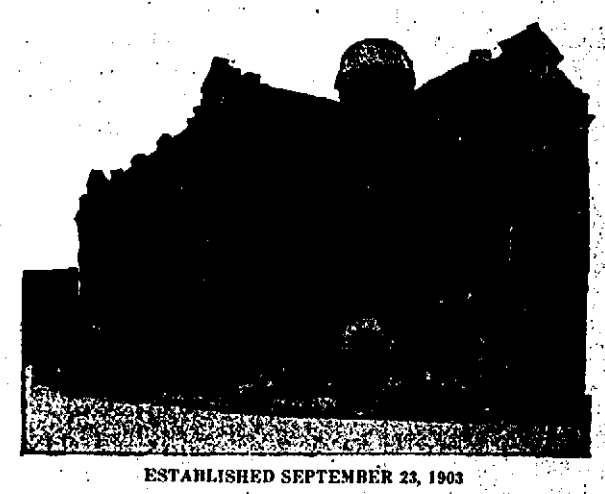
CITIZENS BANK & TRUST COMPANY



ESTABLISHED SEPTEMBER 23, 1903

"THE HELPFUL MAN AND THE HELPFUL FIRM ARE NEVER FORGOTTEN

In this hurry-skurry of 20th Century life, we are sometimes prone to forget, that little word "service"—all of us forget sometimes.

But the above truism, "The helpful man and the helpful firm are never forgotten" was never so true as right now—the opening of a new business year.

For 23 years the Citizens Bank & Trust Company have been giving "service"—something for which no direct charge can be made. From morning to night, its officers and employees are giving helpful service to patrons.

Investments, projects that require additional capital, credits, business locations—a hundred and one things come up in every day business life where we can be of service to you.

Does it pay? Of course it does! But our motives are not entirely selfish—our desire as a bank is "to be a good citizen in the community" where we have our business life.

NEW CHANCELLOR FOR GERMANY

Nine Chancellors In Six Years Is the Record German Republic Has Established

BERLIN, Nov. 21 (AP) Nine chancellors in six years in the record the German republic has established and as the election of December 7 approaches there is much uncertainty as to what the party alignment will be behind the tenth man to be designated to direct the affairs of republican Germany.

Dr. Wilhelm Marx, the present chancellor, took over the post on December 1, 1923, and managed to keep the boat steady during trying times in spite of the fact that he did not represent a majority government. His handling of German affairs in the London conference that evolved plans for putting the Dawes project into effect, and his success in getting the German Reichstag to accept the agreement reached in the London conference were great achievements.

But after the adoption of the Dawes plan and the successful floating of the loan of $200,000,000 abroad for the establishment of a German gold bank to stabilize German currency permanently, domestic politics got so hot that the chancellor Marx was unable to rebuild his cabinet in such a way as to meet with the demands of the various parties at the extreme right and the extreme left. On October 20 he advised the dissolution of the Reichstag that a new election be held to select a Reichstag which may better represent majority opinion and make it possible to form a coalition cabinet which shall have the support of a coalition of parties in the legislative body.

This election will take place December 7. It is impossible to forecast the results with any definiteness because of the multiplicity of parties and the religious racial and political cross currents in Germany which segregate small groups and prevent the development of two or three really outstanding parties such as exist in most parliamentary governments.

It is quite generally predicted however, that both the extreme right and the extreme left will lose strength in the coming election. Communistic leaders and ultra nationalistic leader of the extreme right both apparently have lost ground. World revolution promises held out by communist leaders have failed to materialize so often that German workmen are losing faith in promised world upheavals as the possible cure for Germany's ills.

ARRANGE PEP MEETING TO BOOST GAME

Just Five More Days Before the "Great Game" Is Played.

TEAM RARIN' TO GO

Middlesboro Demonstrated What She Is Capable of Doing When She Stopped Pinkie Waldon.

It is only five more days, and what has rapidly grown to be the day of days in both Middlesboro and Pineville. Will be here. More than two score young men the very flower of the two high schools are all set and primed for the struggle.

Last night the athletic association held a meeting to make final arrangement for the game. A great PEP meeting was arranged for Wednesday night at Central school Auditorium. A committee with Dr. W. K. Evans as chairman was appointed to sell tickets. Every man woman and child from Middlesboro, and all the surrounding region will be solicited. When you buy a ticket a red badge will be strung in your button hole.

There ought to be three thousand present at this game. Those who are arranging the game are making every preparation to handle the biggest crowd that Middlesboro has every turned out.

Two of the best coached high school foot ball teams in this state, will contest for the championship of South Eastern Kentucky Middlesboro showed what she was capable of doing in her last game when she stopped Pinkey Walden one of the greatest ground gainers there is in the South today. Coaches Kilpatrick and Foster have worked wonders with the team. The cripples are all ready to start the game on Thursday. Middlesboro will be ready to start the strongest line up of the season. Pineville has probably the strongest team that she has ever had. When you come you will see a football game. Come on Middlesboro—LET'S GO.

If you have any civic pride, if you are proud of your school, if you have the ability to show appreciation to the young men who will battle valiently for the glory of old Middlesboro high, come out to the game and yell for Middlesboro.

Centre Paints town With Victory Signs

DANVILLE, Ky., Nov. 22.—(AP)—For the first time since the Centre College football team defeated Harvard three years ago, signs tokening victory have been painted at every turn in town.

"Centre 17, Alabama 0".

So they read, recording the Colonels' contention for the Southern championship.

The University of Georgia, at present having the edge, plays Alabama on Thanksgiving and Centre a few days' later, Saturday, November 29.

At least 10,000 spectators are expected for the Georgia-Centre game, business manager Carter said today.

Chief Myers has had the smallest squad in years to work on, while Georgia ,losing its only game to Yale, has 40 varsity men.

Invited to the championship game, the University of Kentucky varsity team will cheer for the Kentucklans while Capt. Saunders of the Wildcats will sit on the Centre bench. Many alumni will attend the homecoming.

The Centre Lieutenants, freshmen, and the University of Kentucky Kittens, also first year, men face each other in Centre stadium on Thanksgiving.

BACKYARD PLAYGROUNDS

CHILDREN ENJOY THE PLAYGROUND

Boys and Girls Are Exhibiting Great Interest In Volley Ball and Other Sports.

The playground, under the direction of the Playground and Recreation Association, is continuing its good work despite the cold weather. Each day sees a bigger group and more interest. Both boys and girls are taking a wholesome interest in volley ball, and are beginning to play very good games. Baseball is still one of the major interests and basketball follows a close second. Football still holds sway on the vacant lots in town and the football games as per schedule are still continuing between the two high school teams, the two central school teams, Noetown and Junction. It will be interesting to note that 80 boys in all the schools who have no opportunity to play on the first, second or midget football teams of the high school and yet who are keenly waiting to play, have been playing organized football in an organized league. Two-thirds of these played very little football before, and one-third never played before and did not know the first rules of the game.

A number of the classes in the Central School have played baseball games among themselves. This is increasing in interest.

The program is as follows:

Monday—Girls' Day—Miss Virginia Broosheer and Miss Lucille Short in charge.

Tuesday—Boys' Day—Mr. Welscheimer and Mr. Creswell in charge.

Wednesday—Mixed—Mr. Fischer in charge.

Thursday—Mixed—Mr. Rodeffer in charge.

Friday—Mixed—Mr. Fischer in charge.

Saturday—Mr. Fischer and Mr. Daly in charge.

Mr. Daly, of Lincoln Memorial University, is employed Saturdays so that a wider program can be put on. When outdoor work is impossible the High School gym is utilized. On Saturday mornings a special program of games and athletics is arranged for boys. About 40 boys are taken care of in this way and are being taught games.

Supervised play leads to a definite end and that is where we are headed. Already the effect of this is finding its way into the classrooms and homes and very pleasant reports are made as to the results.

Horseshoe Tossers Test Skill Today

A new horseshoe pitching contest begins today.

A great deal of interest has been aroused in Middlesboro by the last contest which finished on Armistice Day. Many who were too late in joining before have been clamoring for a chance to be called champions and now they will have their opportunity. The courts of the Playground Association are in fine shape and with the addition of lights so that men can pitch as well at night as during the day, there will be plenty of sport in the matches. Ed Hoe and Jim West, winners in the last contest have dropped out of this one to give the new lovers of the sport more of a chance in the winning.

The matches to be played off this week are as follows:—

Van Kirk vs. Tip West.
C. Brooks vs. Acuff.
Lunsford vs. Jim Allen.
Cantrell vs. Marshall.
Faulkner vs. Wasson.
Gaunt vs. Reid.
Dr. Brooks vs. Coward.

There is still time for those who wish to enter this contest—get your entry in to Ed Hoe, Dr. Van Kirk, "Bud" Fischer or any of the men already entered.

State University Has Last Home Game

LOUISVILLE, Ky., Nov. 22.—(AP).—The University football team had its last game of the season on home territory today, with the University of Chattanooga eleven as its guests at Parkway Field. The visitors had held Mercer college to a close score, and presented a strong front for today's game.

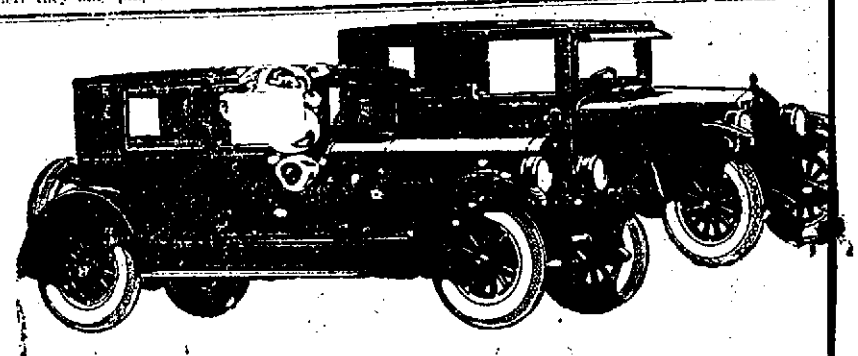
The American Red Cross
Serves Humanity

THROUGHOUT the United States on the memorable anniversary of the armistice which silenced the guns of the world strife the American Red Cross will call the people to join it in the engagements of peace. The annual enrollment, which opens on Armistice Day and, November 11, and ends on Thanksgiving Day, November 27, will be in progress throughout the 3,089 counties in the United States, upon the high seas and in the insular possessions.

More than 3,000 Red Cross Chapters, representing a total membership of more than 3,300,000 will engage in the membership campaign. The Chapter is the community unit of the national organization which carries out locally the extensive program, services and policies of the American Red Cross. The industry of these thousands of busy units is a voluntary and steady outpouring of well-doing and practical sympathy softening human suffering and distress wherever it arises.

Strength in individual membership means effectual preparedness of the Red Cross to cope with any call, anywhere, at any time. "It is this annual enlistment of millions of Americans under the banner of the American Red Cross which makes possible the continued work of this great and democratic legion of mercy," says Judge John Barton Payne, head of the national organization.

"Membership in the Red Cross," declares Judge Payne, "is a privilege within the reach of everyone. The need for service grows more insistent each year. To keep pace with the demands which come from every section of our country we must have the people's loyal support. Our capacity for service in the year to come will be limited only by the extent to which we receive support for our work in the coming Roll Call."



Their Amazing New Valu

The Coach is now priced below all comparison. It is the greatest value in Hudson-Essex history.

Largest production of 6-cylinder closed cars in the world makes possible these price reductions. Hudson-Essex alone have resources to create this car and this price.

Everyone knows the Coach represents highest closed car value.

Not merely because it exclusively provides "Closed Car Comforts at Open Car Cost."

Even more important is the outstanding value in the Hudson and Essex chassis, famous for performance distinction and reliability not equalled by many costlier cars.

No car at or near the price rivals the Coach in actual proof of value—which is sales.
